■ YOUR BUSINESS, BETTER CONNECTED

The work between the work.

Chasing receipts. Rebuilding reports. Copying the same information into different systems. Small tasks add up, taking time away from the work your business is here to do.

We connect the steps: collect information once, put it where it belongs and keep people informed.

EXPLORE · 04

Reporting & performance

Useful totals, regular summaries and a clearer view across teams and locations.

EXPLORE · 05

Accounting & invoice admin

Organised invoices, payment follow ups and clear handovers to finance.

EXPLORE · 06

Expenses & mileage

Mobile claims, receipts, approvals and payment preparation in one connected journey.

EXPLORE · 07

Approvals & accountability

Clear decision routes, named owners and a record of every outcome.

EXPLORE · 07

Team onboarding

Approved requests, account setup, group membership and welcome information.

EXPLORE · 08

Operations & reminders

Timely checklists, targeted reminders and updates that reach the right people.

Not sure where to start? £50 workflow audit.

Bring us one time-consuming process. Get a practical next step.

WebStudio The interface

Workflows The process

Automation The connections

■ 01 CLEARER INFORMATION

Clarity, without the spreadsheet chase.

Bring daily activity into useful reports, with a clear view of the whole business and the detail behind it.

Illustrative reporting concept. Reports and measures are tailored to your business.

01 / COLLECT

Capture it once

Consistent forms and records across your teams, sites and services.

02 / CALCULATE

Keep totals current

Weekly and monthly totals, with breakdowns by location or activity.

03 / SHARE

Make it useful

Branded summaries with the results, notes and exceptions people need.

THE BUSINESS BENEFIT

**Spend less time assembling figures.
Spend more time acting on them.**

■ 02 A CLEARER FINANCE PROCESS

Bring order to finance admin.

See what has been submitted, where it belongs and what needs attention, with the paperwork kept alongside the record.

Invoices, organised.

- Capture supplier, reference, amount and files.
- Allocate a cost centre and accounting category.
- Record approval and send the details to finance.
- Keep a dated record of the handover.

Payments, followed up.

- Record expected payments or funding.
- Ask the responsible person to confirm receipt.
- Send reminders while confirmation is outstanding.
- Update records and reporting totals when confirmed.

ILLUSTRATIVE FINANCE HANDOVER

Everything finance needs.

INVOICE REFERENCE

INV-1042

✓ Approval recorded

Sent to finance

COST CENTRE

Head office

✓ Invoice attached

CATEGORY

Office supplies

✓ Date sent recorded

Ready for the next step

THE BUSINESS BENEFIT

Fewer lost invoices. Clearer cost allocation.
A handover you can trace.

Payment authorisation and accounting decisions stay with your finance team. Connections to accounting software are assessed during scoping.

■ 03 ONE CONNECTED JOURNEY

From receipt to finance. Without the chasing.

An easier way to claim, a clear route to approval and an organised handover for payment preparation.

1 Capture the claim

Submit details from a phone or computer.
Attach a receipt photo or file.

2 Route for approval

Create the record and send it to the right person for a decision.

3 Keep people informed

Record the decision and send a Teams update, including a reason if declined.

4 Group approved claims

Batch eligible claims by claimant, total the amounts and gather the receipts.

5 Hand over to finance

Send the summary and attachments.
Record the batch and date sent.

Capture a receipt wherever the working day takes you.

☒ Claim update

Example

Your claim is approved.

Ready for the finance handover.
Approval is recorded separately from payment.

Status available when you need it

Mileage made simpler.

Calculate the claim using your agreed rate.

Easy to submit.

Clear to approve.

Ready for finance.

Useful for staff expenses, field teams, travel claims and volunteer reimbursements.

■ 04 / 05 PEOPLE IN CONTROL

Keep work moving. Keep decisions clear.

Automation handles the handovers. Your people make the decisions, with a clear owner and a recorded outcome.

AN EXAMPLE DECISION ROUTE

Every outcome: who decided, when and what happened next.

APPROVALS & ACCOUNTABILITY

Everyone knows where things stand.

Capture the information needed, route the request, record comments and send the outcome to the requester.

TEAM ONBOARDING

Get people ready to start.

Collect joiner details, approve setup, create Microsoft accounts, add agreed groups and send welcome information.

THE BUSINESS BENEFIT

Less uncertainty. Clearer responsibility.
A consistent process for your people.

READY TO SIMPLIFY A PROCESS?

Start with a £50 workflow audit.

■ 06 EVERYDAY WORK, ORGANISED

The right prompt. At the right time.

Keep routine tasks visible with checklists, reminders and updates that fit the way your operation runs.

AN EXAMPLE WORKING DAY

09:00

Opening checks
The right team receives its checklist.

Scheduled

Then

Responses reach the right people
A clear follow up for the person responsible.

SCHEDULE

Match the routine

Different times and frequencies for each team or location.

FOLLOW UP

Keep actions visible

Target reminders at records still awaiting confirmation.

NOTIFY

Reach the right people

Route decisions and summaries through email or Teams.

MAKE YOUR EXISTING TOOLS WORK TOGETHER

Your Microsoft 365. One connected process.

■ Power Automate

■ Microsoft Forms

■ SharePoint

■ Excel

■ Outlook

■ Microsoft Teams

One submission can create a record, update a total, request approval and send confirmation.

We agree the connections, permissions and licence requirements during scoping.

Let's give your team time back.

Tell us which process costs your team time. We'll help you turn it into something simpler.
